

Domestic

by Michelle Kelley - Wednesday, September 26, 2012

With Mohawk Global, simplified domestic logistics are just a phone call away.

Moving your goods from point A to point B can be a complex process, but the solution is simple. As your supply chain partner, Mohawk Global gives you a single point of contact to handle everything from start to finish. Our multi-modal logistics services include:

- Full Truckload (FTL)
- Less Than Truckload (LTL)
- Specialized Equipment
- Air & Surface Expedited
- Intermodal
- Warehousing & Distribution
- Supply Chain Management

So when you're planning your next domestic shipment, you could choose your transportation mode, select your carrier, negotiate your rates, schedule your pickup, ship your goods, track your orders, and manage your delivery on your own.

Or better yet, just pick up your phone and give Mohawk Global a call.

What does “mode neutral” mean?

Mohawk Global is mode neutral, meaning we're not bound to any carrier or transportation mode. Let us put this flexibility to work for you.

FTL

For FTL shipments, Mohawk Global is your direct route to efficiency and convenience. Through a network of carriers spanning North America, we'll arrange for fast, cost-effective and seamless transport of your FTL shipments, handling the entire process from start to finish.

LTL

Just because your freight is less than truckload does not mean you shouldn't get full service. Unlike other domestic forwarders, who only do rate negotiations, Mohawk Global is there to manage your LTL shipment from start to finish. We create the Bill of Lading, coordinate pickups with carriers, and track

and trace your shipment from scheduling through delivery. Mohawk Global gives you one point of contact and a world of resources, so you're in full control. We offer:

- Time or day definite guaranteed services
- Volume LTL services for shipments exceeding standard weight or length
- Deferred air services
- Tradeshow specialists

Specialized Equipment

While cargo shapes, sizes and requirements may vary, Mohawk Global's ability to help you ship it does not. From over-sized loads to complicated and heavy-haul shipments, we'll connect you with carriers that have the specialized equipment to keep your cargo moving effectively. From flatbeds and additional axles to step decks, low boys, and curtain-sides, specialized equipment is just one of our specialties.

Air & Surface Expedited

When you need to get your cargo there fast, the team at Mohawk Global takes action. We offer a variety of options for expedited logistics, including:

- Same Day
- Next Flight Out
- Next Morning Delivery
- Next Day Delivery
- Second Day Delivery
- White Glove Service

Whatever your requirements are, we have the resources to get your goods where they need to be on time and, in many cases, under budget.

Intermodal

Despite a common misconception that rail is outdated, Mohawk Global recognizes that it is actually one of the most affordable, and fastest- growing modes of transport available. It's also one of the best ways to lessen your environmental impact. Work with us to take advantages of recent updates to the domestic freight rail system and make rail part of a more efficient, cost-effective supply chain.

Whether it's due to tight capacity or the need for a lower cost alternative to FTL shipping, we have the ability and partnerships to get your freight ready for intermodal transport.

Warehouse Solutions

A streamlined supply chain means more than the transportation of cargo. It's also about having the space you need to store goods and ensure on-time order fulfillment and returns management. Mohawk Global gives you access to a worldwide network of distribution facilities and warehouses, allowing us to provide you with:

- Apparel Warehousing
- Pick and Pack
- Garment on Hanger Services (GOH)
- Cross Docking
- Back Office Solutions

Supply Chain Management

Whether you have one shipment or a network of distribution facilities, we offer the expertise to develop customized solutions to allow you to focus on your business. Ask us about our:

- Spot market rates
- Contractual freight moves
- Consolidations
- Claims management
- Cross border expertise with Canada and Mexico
- Rate audit and analysis

Contact us to learn why, with Mohawk Global warehouse solutions, new capabilities and convenience are always in store.
