

From Central New York to Ningbo: A Huge Success

by Lauren Felasco - Monday, December 28, 2015

Do you have oversized cargo that needs to be shipped? You're in luck! Mohawk has plenty of experience moving out of gauge items.

Recently, we helped an export client ship a large piece of machinery (pictured above) from Central New York to Ningbo, China. The export moved as break bulk, weighing 65,000 lbs. and measuring 23' in diameter. Clearly, no shipment is too big for Mohawk to handle!
