

Inbound

by Danielle Leonard - Friday, February 17, 2017

How do you outsource inbound transportation without losing control or visibility?

From keeping your vendors in check to dodging loading dock scheduling conflicts, the process of inbound transportation can be daunting. Put the burden on us. Mohawk Global Logistics will make your vendors work for you by matching you with carriers based on what's most economical and efficient for your organization. Get the control and visibility you need, without the hassle.

What's included

Vendor Compliance. Scheduling and booking based on your specs and delivery requirements.

Carrier Choice. Get the best of both worlds; our recommendations for cost saving opportunities coupled with your choice of carrier.

Transportation Management. VIP tracking and exception notification by one of our dedicated transportation specialists.

Consolidated Billing. Hassle-free payment management.

Claims Assistance. We'll help you with claim submissions and track them through each stage of the process.

P.O. Management. P.O. tracking and online document management.

GlobalLink Domestic Transportation Management System (TMS). Tailored solutions to allow 24/7 visibility, reporting, and more.

Give Mohawk Global Logistics the reigns and take back control of your inbound transportation.
