Thursday, June 18, 2015

Exporters can now apply for C-TPAT membership, as announced by U.S. Customs and Border Protection (CBP) earlier this month. Although there is no cost to participate, exporters must first complete a lengthy application and certification process before they can reap the benefits of the program.

### Why join C-TPAT?

The benefits include, but are not limited to:

- Prioritized export shipments
- Global security partnerships
- Heightened facilitation from mutually recognized customs partners
- Access to C-TPAT sponsored security seminars
