

You see a container half empty.
We see a world of opportunities.

Choose Mohawk for LCL. We know how to fill a container.

Sometimes your need to ship outweighs your need to fill an entire ocean container. When a less than container load seems like a less than surmountable task, you need a consolidator that gets it done and gets it done right. Mohawk Global Logistics is the answer to your LCL needs. We'll match your LCL freight with other cargo traveling in the same lane, transport it to a CFS, and even help you with Customs brokerage. Call to learn more about our LCL services or for a speedy quote.
